Professional Summary

B.Tech Computer Science graduate (2022–2026) and Graduate Apprentice Developer at TekWorks with hands-on experience building Java Spring Boot backends, Node.js REST APIs, and ASP.NET Core MVC applications. Skilled in full-stack development, cloud computing, networking, and cybersecurity.

Experience

Graduate Apprentice Developer — **TekWorks, Vijayawada** *Apr 2026 – Present* *bitLabs LMS Platform* — *Java · Spring Boot · Supabase · PostgreSQL*

- Built the Course Progress backend module using Java Spring Boot; created `course_progress`, `topic_progress`, and `course_topic_master` tables in Supabase (PostgreSQL).
- Developed RESTful APIs with Spring Boot service/repository layers, integrated with Supabase backend in collaboration with the TekWorks product team.

Backend Intern — **Bodhasoft (LMS Project)** *2025* *Node.js · Express.js · MongoDB Atlas · JWT · AWS S3 · REST APIs*

- Built a full-stack LMS backend with JWT-based authentication, role-based access control (Admin, Student, User) and protected route middleware.
- Developed APIs for topic/content management, AWS S3 image uploads, ticket management, and recorded session retrieval; configured MongoDB Atlas with Mongoose schemas.
- Tested all endpoints via Postman; supported frontend integration for admin upload and student content access flows.

Virtual Intern — **Network Security** — **Fortinet (Remote)** *2024*

- Configured FortiGate firewalls and security policies; analyzed network threats and incident response workflows through hands-on labs covering VPNs and IPS.

Virtual Intern — **Cloud Networking** — **Juniper Networks (Remote)** *2024*

- Managed network devices via Junos OS and CLI; implemented routing protocols, VLANs, and Wi-Fi architectures in cloud-managed enterprise scenarios.

Projects

AURORA — **AI-Augmented Code Refactoring Advisor** | *Python · FastAPI · CodeT5 · AST · VS Code Extension · TypeScript*
2025–2026

- Final-year project: built a VS Code extension + FastAPI backend pipeline that performs AST-based static analysis and uses a Hugging Face CodeT5 transformer to generate optimized, maintainable code suggestions in real time.
- Implemented hybrid rule-based + AI refactoring engine detecting unused variables, redundant statements, and inefficient patterns while preserving original functionality.

Location MVC App | *C# · ASP.NET Core MVC · .NET 10 · Razor Views* *2026*

- Full-stack location management app with MVC architecture (Controllers, Models, Views, Services, ViewModels), service-layer abstraction, and mock data patterns. github.com/Surya2546/Location-MVC-app

Coding Mentor UI | **Python Mini Projects** | *HTML/CSS/JS · Python · OpenCV · Speech Recognition* *2024–2025*

- Responsive coding mentor frontend integrated with a hosted backend; Python projects include a custom browser, motion-detection camera, and voice assistant.

Technical Skills

Languages: C# (.NET), Java, Python, JavaScript/TypeScript, C/C++, SQL
Frameworks: ASP.NET Core MVC, Spring Boot, Node.js, Express.js, React.js, FastAPI, Flask
Databases: PostgreSQL (Supabase), MongoDB Atlas, MySQL, SQLite
Cloud & DevOps: AWS S3, Docker, CI/CD, Linux, Git, GitHub
Networking & Security: TCP/IP, Firewalls, VPN, Junos OS, FortiGate, Wireshark

Education

B.Tech — **Computer Science & Engineering** | SRK Institute of Technology, Vijayawada | 2022–2026 | CGPA: **7.95/10.0**

Higher Secondary (MPC) | Kendriya Vidyalaya NAD, Visakhapatnam | 2022 | CGPA: 7.83/10.0

Certifications

Cisco DevNet Associate · Fortinet NSE (Network Security Associate) · Juniper Cloud Certified Associate · Cloud Computing (Infosys, 2025) · Software Engineering & Agile (Infosys, 2024) · DevOps for Engineering Leaders (Infosys, 2024)
